- d. Provide an assistant to the OBH Registration desk.
- e. Provide a course that is trimmed in a manner that all styles of equipment can shoot arrows unimpeded to each target.
- f. All trails will be clearly marked so people do not become lost or create a safety hazard.
- g. Insure that the target is the correct shooting distance.
- h. Insure 3D animals are in good conditions to make sure shoot through do not occur, and scoring rings can be read.
- i. Have water stations at the far end (furthest point from the club house) of each trail.
- j. Provide adequate bathroom facility.
- k. Food will be available throughout the 2 day event.
- l. Provide tables, chairs and electricity and one adult to assist with registration.
- m. Provide OBH information to camping, local lodging, map and directions.
- n. The club will mail an invoice 15 days after the shoot to the OBH Treasurer for payment.

**6. OBH State Organization agrees to the following conditions:**

- a. Provide a registration secretary.
- b. Provide a grievance committee.
- c. Provide adequate advertising in the OBH magazine, fliers to archery shops and archery clubs in a timely manner.
- d. Provide a range safety inspector.
- e. Provide a contact person to answer questions.
- f. Provide trophies.
- g. Provide awards ceremonies.
- h. Suggested OBH to pay the host club \$ \_\_\_\_\_ per shooter per day for the first 100 shooters and \$ \_\_\_\_\_ per day for any shooters over 100. All cub age shooters shoot for free.

**OBH 3D Safety Requirements:**

- a) No course shall receive approval until all safety hazards, in the opinion of the inspector, are removed.
- b) All range inspectors MUST be members of the OBH.

- c) No paths leaving targets shall go directly behind targets.
- d) If target is situated so that any path, target, road or buildings are behind at any reasonable distance, then the target must be provided with an adequate backstop.
- e) Practice area must be placed so that no paths, roads, pass a reasonable distance behind practice butt. Practice area shall be treated as giant sized target, and so cleared and backed.
- f) Targets should be placed in shooting lanes to simulate hunting conditions, but at the same time these shots should be good, clean (not clear) and safe shots. Remember, realistic bowhunting practice shots.
- g) If an arrow is lost, the archer may search for their arrow a maximum of 25 yards behind the target. The shooter should place their bow across the shooting lanes in plain sight, or stand their bow in front of the target butt and/or 3-D animal.
- h) A minimum distance ranging from 25 to 50 feet must be provided between any paths or shooting lanes paralleling another shooting lane. This minimum permits tolerance to be used, depending upon terrain or length of shot. Any distance used must preserve absolute safety.
- i) A minimum of 50 yards must be provided behind the target. An appropriate back-stop may be substituted.
- j) Distance on either side of a target to be free from archers shall be 30 degrees from the shooting position. This does not mean all clear, but only that no shooting positions, waiting areas, etc., be located in this area. To figure the 30 degrees, multiply  $.57735 \times$  the number of feet between shooting stake and target.
- k) No target shall be situated on top of a hill where a miss becomes virtually a flight arrow.
- l) It is mandatory that on a bow hunter range, the range inspector must be provided, at the time of approval, with a map of the range layout which will be used for the approval. Also if an accident occurs during the shoot this may be used for Insurance purposes. A map shall show distances, direction and targets and shooting positions.
- m) Archery range safety warning signs shall be posted on all approved OBH 3-D ranges at the inspector's discretion.
